

## NYS School Breakfast Program District Level Data

---

*Companion tables for the 2020 NYS School Breakfast Report*

The following two tables give a local-level overview of participation in the federal School Breakfast Program in public school districts and public charter schools.

**Table 1: Overview ..... page 1**

*An overview of free and reduced-price school breakfast eligibility, participation, and the School Breakfast Gap*

**Table 2: Year-to-Year Comparison .....page 29**

*A comparison of the 2017-2018 and 2018-2019 school years*

---

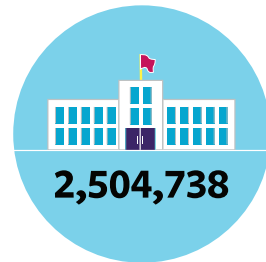

*Special notes:* This analysis only captures public schools that operated the federal School Breakfast Program during the school years specified above. Private schools are not included, even if a private school serves breakfasts prepared at a public school. Also, in certain cases, school districts may not have offered the School Breakfast Program in all of their buildings, therefore, while the district may be represented in this data set, the individual buildings that did not offer breakfast through the federal program are not included in the data.

## 2018-2019 NYS School Breakfast Participation Snapshot

Statewide, participation in the School Breakfast Program (SBP) remains low among children who qualify to eat breakfast for free or at a reduced rate (F/RP).

### During the 2018-2019 school year:

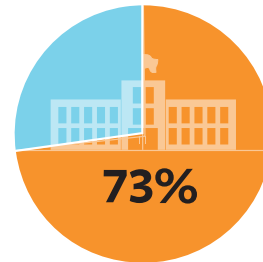

2,504,738 Students Were Enrolled in Public Schools that Offer SBP

of them:

1,838,560 (73%) Qualified for F/RP School Meals

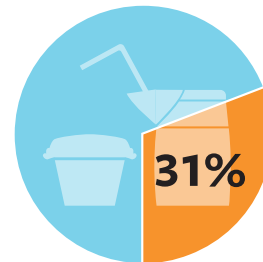

of them:

616,884 (25%) Students in Total Ate Breakfast

of them:

564,133 (31%) Students Ate F/RP Breakfast

Although school breakfast remains historically underutilized, it is important to note an additional 27,838 students ate school breakfast in the 2018-2019 school year compared to the previous school year.

## Table 1: Overview

This chart provides an overview of students eligible for free and reduced-price (F/RP) school breakfast within each district/charter school, the number of students eating free and reduced-price breakfast and lunch, and an analysis of the School Breakfast Gap, by comparing breakfast participation to National School Lunch Program (NSLP) participation. This analysis provides information on how many more students would be eating breakfast and how much additional federal funding would be generated if the district met the 70% benchmark for participation. In addition, this table reveals whether or not a school (also referred to as School Food Authority or SFA) utilized a federal provision (noted as “Prov Type” in the table) to provide free breakfast to all students during the 2018-19 school year, and the number of individual schools within the district that utilized a provision.

### Offering Universal School Breakfast

Schools can offer breakfast at no charge—universal school breakfast—to all students, using the following federal models:

- The Community Eligibility Provision (CEP) is a federal option that empowers schools with a high percentage of low-income students to offer free breakfast and lunch to all students.
- Provision 2 (Prov 2) is a federal option that allows schools to serve breakfast to all students at no charge.

County	School Food Authority	Enrollment	Qualified for F/RP		Students Eating F/RP School Breakfast		Students Eating F/RP School Lunch	School Breakfast Gap (SBP vs NSLP)	If F/RP Breakfast Participation Reached 70% of NSLP (165 days)		Prov Type	Schools Offering Free Breakfast	Schools within SFA

## **Table 2: Year-to-Year Comparison**

This analysis compares the 2017-2018 school year to the 2018-2019 school year. This comparison is of participation in free and reduced-price breakfast and School Breakfast Program (SBP) participation among the entire student body—regardless of what a student pays. This chart provides the change in the average daily participation (ADP) by both percentage and raw number of children eating free and reduced-price school breakfast from the 2017-2018 school year to the 2018-2019 school year.

## Acknowledgements

Hunger Solutions New York, Inc., greatly appreciates the support of the many public agencies, private foundations and individuals who have made this publication possible. We acknowledge the New York State Office of Temporary and Disability Assistance and the United States Department of Agriculture. We also gratefully acknowledge the support of our partners in our Campaign to End Hunger: the Food Research and Action Center, The Walmart Foundation, Share Our Strength, Albertsons Companies Foundation, and many individual donors throughout the state.

In particular, we acknowledge the New York State Education Department for its administrative efforts to promote and protect the integrity of the School Breakfast Program in New York State, in addition to providing the data on which this report is based.

Published March 2020. Hunger Solutions New York Child Nutrition Specialist Jessica L. Pino-Goodspeed, LMSW, is the lead author of this report.

This institution is an equal opportunity provider.

## About Us

Hunger Solutions New York is a caring and informed voice for hungry New Yorkers. We promote:

- Awareness of hunger in communities across the state
- Awareness about programs that address chronic and crisis hunger
- Participation in nutrition assistance programs for all who are eligible
- Public policies that contribute to ending hunger
- Awareness of the health, economic and educational benefits of nutrition assistance programs

Those efforts improve the health and well-being of New Yorkers while boosting local economies throughout the state.
