Checklist for Determining Student Eligibility

SNAP rules limit the eligibility of certain groups of people, including students. Follow this checklist to determine if an applicant meets the criteria of an eligible student under SNAP rules.

Please note that there are additional SNAP income and eligibility rules that all SNAP applicants, including students, must meet in order to qualify to receive a SNAP benefit each month.

1. Establish applicant's status as a student. The applicant:

- Yes** **No** Is enrolled in a higher education institution that normally requires a high school diploma or equivalency certificate for enrollment. This includes but is not limited to: colleges, universities, correspondence school or online courses, vocational and trade/technical schools at the post-high school level.
- Yes** **No** Is enrolled at least half-time (using the school's definition of half-time).
- Yes** **No** *For an applicant applying between semesters:* intends to register for the next school term.

If "Yes" to all of the above, the applicant is considered a student and the student rule applies. Proceed to Step 2. If "No" to any of the above, the applicant is **not** considered a student and the student rules do not apply (continue to screen the applicant under regular SNAP rules).

2. Is the student enrolled in a college meal plan?

- Yes** **No** The applicant receives 50% or more of their meals from a college meal plan. Note: This is based on 3 meals for seven days equaling 21 meals. The SNAP office must screen each student to identify the number of meals the student is granted under their meal plan.

If "Yes", the student is **not** eligible for SNAP, as they are defined as living in an institution. If "No", continue to Step 3.

3. Does the student meet ANY of the following exemptions? If so, provide the SNAP office with the documentation noted.
